Attention: Application Examiner

Reference:      Applicant:      Kopin Display Corporation  
                         Equipment:      Wearable Device  
                         FCC ID      ZAOSOL0S001

Dear Sir/Madam:

Enclosed please find a Class 2 Permissive Change Application.

The Class II Permissive Change with FCC ID: ZAOSOL0S001 by Kopin Display Corporation is not modified in any way from the Panasonic equipment. It uses the radio module in its original configuration. The test results of equipment bearing the changed identification number continue to be representative of the original ID that is on file with the FCC. This module will be installed into a specific host, a wearable device, called Solos.

Sincerely,

A handwritten signature in black ink, appearing to read "John G. Gassel".

John Gassel  
Principal Electronics Engineer  
Kopin Display Corporation
