Attention: Application Examiner

RE: Request for Confidentiality
Applicant: Kopin Display Corporation
FCC ID: ZAOSOL0S001

To Whom It May Concern:

Permanent Confidentiality

Request is hereby submitted by Kopin Display Corporation to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block Diagrams**
- **Detailed Operational/Functional Description**
- **Parts list**
- **Internal photos**

Rationale for request for confidentiality:

Kopin Display Corporation has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. We request that internal photos be held confidential because the device is sealed for water protection and IP rating. As a result, the internals are inaccessible to the general user. Screws are not accessible without damaging the unit. The unit is serviceable only by Kopin.

Sincerely,

A handwritten signature in black ink, appearing to read "John G. Gassel".

John Gassel
Principal Electronics Engineer
Kopin Display Corporation
